---

Hello,

I think this new ruling is wrong. It comes at a time when our economy is in turmoil. What do you want from us. I am trying to take care of my self and my family with out the governments help. This is wrong please quit trying to save me from my self. I will just take my accts and go over seas. I love the US but you guys are trying to tear it down. Now who do you think is the terrorist here.. We do not need any out side help to destroy the US you are doing a great job. Well were will your jobs go when every one takes there acct over seas. I would think on that.
