Subject: Regulation Of Retail Forex

Hello Sir/Ma,

This email concerns the proposed regulation of retail forex accounts (RIN 3038-AC61).

I am a retail trader from Nigeria, and have been learning to trade for 3 yrs now, i think that the proposed regulation would severely limit the number of traders like me who have taken the pains to learn how to trade prudently by minimizing risk. The responsibility i think lies with the investor/trader to learn to minimize the risk associated with trading. Any attempt by the CFTC, to limit the amount of leverage the individual trader takes in my opinion amounts to over regulation.

Thank so much for your time.
