Subject: Regulation of Retail Forex

Here is a draft letter Dear CFTC/NFA:

This is ashame. I trade the retail Forex market with a US based brokerage and I will leave, if you lower the current leverage for my trading account as you propose (RIN 3038-AC61), you will force me to leave the US brokerage and find a European based broker firm with more favorable leverage terms. You have already taken away the hedging I believe in this current economic time, we shouldn't make it any more difficult to do business with US based companies and employers. I urge you not to change the current leverage requirements. Thank you.
