Subject: Regulation of Retail Forex

To Whom it may concern,

I wish you to note my **oppositon to the proposed implementation of a 10:1 leverage**

This is one of the worst possible changes that could be made unless of course, it is your intention to prevent 90% of Retail Traders continuing to trade.

You may indeed have some hidden agenda and in fact I can see no other reason why you would want to impose such a ludicrous rule.

Regards

Matt Sharp
