Subject: Regulation of Retail Forex

Dear Sirs;

I am referencing, RIN 3038-AC61 and writing to ask you not to change the Forex trade ratio to a 10:1 from 100:1. My reason for this is that I am retired & this will effect the amount of money that I will need to trade Forex. I have a small account of \$2037.17 & the new law you are proposing will take half of my account value to put on a 1 mini lot trade. If I happen to lose half of my account I will be forced to trade even smaller lots & be brought down to not being worth my while to even bother with trading. Is that the point of this, to run out the little fellow such as myself? Thank you for your consideration to this matter for me.
