Subject: Fucking the little guy again govt cocksuckers!!!!!!

Congratulations, I see you fucking cocksuckers want to make sure that the little guy can not trade small accounts. I know you fucking corrupt govt cocksuckers. When can we change the constitution to what it really means...for the the big corporation by the big corporation. By changing forex from 100-1 to 10-1 (first it was 200-1 and you fucking dick suckers changed that and that was not good enough). What you stupid fucking shit for brain itots are doing is making sure the little guy can not be traders...I guess you just want to save that for the big banks you bastards bailed out.
