---

Dear, Commodity Futures Trading Commission (CFTC)

With reference to the new proposed  Regulation of Retail Forex (identification number RIN 3038-AC61) specifically the change in leverage.

Please do not allow this to happen. I fell that keeping money in the hands of Americans is an important objective for all US government agency's. If the leverage is allowed to be changed you give the United States of America less tradind power than all outhar countrys,, Is this smart? I think not! Take a look at our economy and ask yourself can we take another blow to the economy???

Please take that under consideration.

Respectably, Cory L D Walker
