Subject: Regulation of Retail Forex

I am a retail forex trader and to change the current leverage from 100:1 to 10:1 would be simply disasterous to my trading abilities to make a living. I have a wife, a daugther and a child on the way. This type of change would cause economic hardship on my family during a time when the US Economy is losing jobs and viable companies are hard to find. I would appreciate it if the CFTC would leave the leverage for retail traders at its current level of 100:1.
