Subject: Regulation of Retail Forex

RIN 3038-AC61

I'm emailing you to show my concern in regards to the leverage regulation of 10:1 you are considering.

You obviously understand the consequences of what this will do to the average trader who simply won't be able to trade.

I want to know why you think this is going to benefit the industry and the Forex investor, especially younger investors with small deposits?

I look forward to hearing from you shortly.

Regards,
Harry Burchnell
