**Subject:** Regulation of Retail Forex

---

Dear Sir/Madam:

I clearly oppose the new changes for retail forex. There is sufficient safety measurements for anybody to know and be aware that trading has a risk and that you can loose all your margin at risk.

Is gambling regulated? Is there a limit on how much you can gamble? I think 100:1 margin is not great but a 10:1 margin would clearly not work in the US.

Sincerely,

Dave.
