Subject: Regulation of retail Forex

Dear
Secretary,
February 4, 2010

I am a foreign currency account holder. I am opposed to the proposed regulation to limit leverage to 10:1. The current leverage of 100:1 is an acceptable risk to me and feel I should have the option to invest my money in this manner. While regulation and oversight are needed over regulation will stifle the retail trading market. Thank you for your consideration in this matter.

Sincerely yours,

Constance G Thacker
