Subject: THE CFTC PROPOSAL

Good day.

My name is Nwaka Patrick,i am a client of Alpari(us). I understand the fact that the CFTC are protecting brockers and client in one way or the other.I will not get involved with Alpari if they are not registered with CFTC because i realy understand the role they play in this field,that is why i am speaking out about the proposal that is about to be imposed.

I think it as wise for an investor to decide that and not the body. Leverage or no levrage,one can loss some or all of his or her initial money invested on trading.

Imposing this kind of proposal will make serious retail traders who take it as thier source of income to stop trade or maybe open an account off shores which is exatly what am going to do if the propasal is approved.

I will like this to be given a very big taugth before it is approved
