Subject: Regulation of Retail Forex

Dear Secretary:

Hello, my name is Dennis Bacote and I am writing you about the Regulation of Retail Forex. I am a Forex trader. I trade forex for a living and I only use micro and mini accounts because I don't have a lot of money. This is my life my job. There aren't any jobs out here and I would be another person out of work. The margin on any account doesn't work for the trader if the trader misuses it. Thank you Please don't put me and other's out of something that we LOVE!
