Subject: 100:1 Leverage Stays

To Whom It May Concern,

As a smaller investor, higher leverage is a necessary aspect of FOREX trading. The only people who would not be affected by lower leverage are investors that are not hindered because of their amount of capital. Therefore, to change the maximum leverage to something less than 100:1 would hurt the larger population of FOREX investors like myself.

Sincerely,
Jerry Wierwille
FOREX Investor
