**Subject:** in regards to changing the leverage

---

i was wondering why you wanted to change the leverage.i have studied hard to learn how to trade forex,but when i trade i use money management,and never really use the leverage.i trade a certain dollar amount of my account size for risk.so would this effect the margin also if you are trading mini's or say 4,000 unit's,3,000 unit's etc?hope to hear back from you.thank you,tony
