Subject: Regulation of Retail Forex

RIN 3038-AC61

I am COMPLETELY AGAINST the CFTC lowering the amount of leverage on retail forex accounts. Currently I have 100:1 leverage with my broker GFT Forex, and with only 10:1 leverage I would not be able to trade and make the same amount of money and provide an income for my family!!!!!!!!!!!!!!!!!!!!

This directly affects me and ten of thousands of other retail forex traders who trade forex to provide income for our families!

DO NOT lower the leverage to 10:1. I express my opinion strongly against the Regulation of Retail Forex Rin 3038-AC61

Thank you,

Josh
