Subject: Proposed Forex rules...

People, look, your job is to protect people from crooks. You identify scams and criminal activity which help us to avoid being suckered by disreputable brokers, etc.

Your job is NOT to be my mommy.

Please keep your hands off margin requirements. You only would make it more difficult for the average person to make a living and you will effectively move many more millions offshore.

Already most traders have contacted offshore brokers to move accounts and continue trading if your silly margin rules go into effect. As with our family personally, we are even considering moving to another country if the Socialist / Fascist agenda continues here.

In the meantime know that I and all of my 200+ extended family (most in Massachusetts) have left the Democratic Party and registered as Independents and agree with the TEA Party principles of limited government, fiscal responsibility and our Constitutional freedoms.

Please stop your nonsense.

We demand you leave the margins alone and further demand that you allow FOREX to be traded in Individual Retirement Accounts.

Veteran psychiatrist calls liberals mentally ill
Publishes extensive study on 'Psychological Causes of Political Madness'

The Liberal Mind

The Psychological
Causes of Political
Madness

LYLE H. ROSSITER, JR., M.D.

– Just when liberals thought it was safe to start identifying themselves as such, an acclaimed, veteran psychiatrist Lyle H. Rossiter, Jr., M.D. is making the case that the ideology motivating them is actually a mental disorder.

"Based on strikingly irrational beliefs and emotions, modern liberals relentlessly undermine the most important principles on which our freedoms were founded," says Dr. Lyle Rossiter, author of the new book, "The Liberal Mind: The Psychological Causes of Political Madness. "Like spoiled, angry children, they rebel against the normal responsibilities of adulthood and demand that a parental government meet their needs from cradle to grave."

While political activists on the other side of the spectrum have made similar observations, Rossiter boasts professional credentials and a life virtually free of activism and links to "the vast right-wing conspiracy."

For more than 35 years he has diagnosed and treated more than 1,500 patients as a board-certified clinical psychiatrist and examined more than 2,700 civil and criminal cases as a board-certified forensic psychiatrist. He received his medical and psychiatric training at the University of Chicago.

Rossiter says the kind of liberalism being displayed by both Barack Obama and his Democratic primary opponent Hillary Clinton can only be understood as a psychological disorder.

"A social scientist who understands human nature will not dismiss the vital roles of free choice, voluntary cooperation and moral integrity – as liberals do," he says. "A political leader who understands human nature will not ignore individual differences in talent, drive, personal appeal and work ethic, and then try to impose economic and social equality on the population – as liberals do. And a legislator who understands human nature will not create an

environment of rules which over-regulates and over-taxes the nation's citizens, corrupts their character and reduces them to wards of the state – as liberals do."

Dr. Rossiter says the liberal agenda preys on weakness and feelings of inferiority in the population by:

- creating and reinforcing perceptions of victimization;
- satisfying infantile claims to entitlement, indulgence and compensation;
- augmenting primitive feelings of envy;
- rejecting the sovereignty of the individual, subordinating him to the will of the government.

"The roots of liberalism – and its associated madness – can be clearly identified by understanding how children develop from infancy to adulthood and how distorted development produces the irrational beliefs of the liberal mind," he says. "When the modern liberal mind whines about imaginary victims, rages against imaginary villains and seeks above all else to run the lives of persons competent to run their own lives, the neurosis of the liberal mind becomes painfully obvious."
