Subject: REGULATION

This is my opinion on our government trying to make new laws for the FOREX INDUSTRY,,, There are millions of people you would be hurting by trying to change the FOREX INDUSTRY!!!!!!!!!! Millions of people trade this market for a living, and our government,, will be making people not make the money they need for there families!!!! i am getting together with a very important group of people,, and we are going to washington with this!!!! washington wants to help people get jobs,,, not take them away from so many people!!!! this has to be brought to T.V. so the people of the U. S. can see how our government will be hurting millions of peoples JOBS!!!!!!!!!!!!!!!!!!!!!! I have contacted a T.V. station that is very intersted in this subject!! I have been tradeing the FOREX MARKET for over 15-years, this will kill me and MILLIONS OF OTHER PEOPLE....
THANKYOU GEORGE IPPOLITO
