Subject: Forex Leverage

I have been trading forex for a few years now and I have seen the ups and the downs. I am moderately successful and I can say with confidence there should be no intervention on leverage restrictions. Leave the market alone. Leverage is not the problem. Education is the source of good and poor decisions. There will always be stupid people, and the sooner we let them learn the big hard nasty lesson the sooner they weed themselves out.

Please do not change the leverage ration, it will not have a positive impact on traders.

Thank you for your time,

Tyler Kelley
