Subject: Regulation of Retail Forex

This email is in response to the proposed regulation "RIN 3038-AC61". As a small Forex trader I do not believe that I pose a risk to any financial systems, furthermore, I am aware that I am assuming risk when entering into a trade. Therefore, I am against this form of regulation, and believe this type of action will only drive others like myself into other avenues of trading.

Thank You,
Thill1@sssnet.com
