commenter\_subject: Reulation of off exchange forex markets

commenter\_frdate: 1/20/2010

commenter\_frpage: 75 FR 3281

commenter\_comments: I don't understand your motivation in seeking to  
over regulate the OTC foreign exchange industry. I  
believe you think you're regulation will stop the  
huge losses incurred by the small uninformed  
investor. This simply will not happen, unless you  
are planning on closing all forms of financial  
opportunity to the less financially savvy. There  
have been snake oil salesmen since the beginning of  
time, and they will exist as long as the ignorant  
exist. Regulation will not repair the human  
condition of greed driven blindness. The way I see  
it, you have proper regulation in place. Changing  
the regulation and potentially forcing good  
companies off shore, is poor use of your power as a  
governing body. Why punish honest hard working  
Americans chasing the dream?
