**Subject:** Proposed Forex Leverage Change

---

I am against the proposed change of forex trading leverage to 10:1. I believe that these proposed regulations will so significantly change the leverage factor as to eliminate the forex trading opportunity for many individual traders. In addition, those wishing to trade forex with any meaningful leverage would have to seek alternatives outside of the United States if those avenues would even be available to U.S. customers. Therefore I am against the proposed change.
