Subject: Regulation of Retail Forex - RIN 3038-AC61

January 15, 2010

Sirs:

The limiting of leverage available to retail customers on retail forex transactions to 10 to 1 would only hurt little people like myself with a dream of

someday being financial free. It would do nothing to people that already have all the money that they need. Please, Think about what you are doing

to us liitle guys.
