commenter\_subject: forex lverage change

commenter\_comments:

This change in leverage will put thousands of people out of business and I don't see the reasoning behind this idea. In today's economy it doesn't make sense to force people out of a business that they are successful in. Trading in any instrument has risk but placing a leverage limit doesn't change the risk factor. All this does is let the large institutions in the market and weeds the little guy out who should have the ability to be in the market just like them. It will be a total injustice if this is carried out.
