**Subject:** Regulation of Retail Forex

---

***I am a below-average-incomed person who trades with minimal capital, therefore this rule will definitely impact myself as I need to fork out more capital. Means, only well-to-do people can afford to learn forex trading, but not everyone.***

***There are many people in the world who trades with minimal capital, and are not as wealthy as the americans or europeans.***

Yours sincerely,  
Mr Tan
