Subject: RE 1:10 Forex Leverage

Dear Secretary,

As a small Forex trader please don't put a max leverage of 1:10 on my trades. Since the economy took a huge dump this has been my only income and it is the reason I can support my family without government help, no welfare, no food stamps, no help with the mortgage, no unemployment benefits.

This is my stimulus package, I work very hard at it and I don't think I need the governments help in managing my money.

Please with all do respect butt out.

Thanks for your consideration in this matter.

Joe Cote
