Subject: Regulation of Retail Forex' RIN 3038-AC61

Sirs,

I strongly disagree with your thinking of changing the margin rules for forex trading. If you change the margin rules there are those of us that will no longer be able to make a living, and this will result in more loss of jobs, more on welfare. I do not understand the rush to bankrupt the working people of this country. You seem to have taken the right to vote from us, since everything is done now by Congress or the House or one of "their" committees. This is not the American way. I would ask you vote against decreasing margin from 100:1 to 10:1.

Regulation of Retail Forex' **RIN 3038-AC61**.

Thank you

eddie Ashbrook
