commenter_subject: Regulation of Retail Forex

commenter_frdate: January 20, 2010

commenter_frpage: March 09, 2010

commenter_comments: The regulation doesn't avoid risks, It just close
markets from everybody different than banks
or other association because everyone decide how
many points is subject to lose, so increase the
margen from 100:1 to 10:1 the different will be
capital needed and not less risk.
