Subject: "Regulation of Retail Forex"

Hello,

As a retail investor, I feel the change to a 10:1 leverage is inappropriate. Leverage is what Forex Trading is all about.

Us retailers are finally able to participate in something sound and with life changing results. What's wrong with that? The more one makes, the more one spends-hence a contribution to our economic market-hence jobs.

George Soros (the Anti-Christ), wants to convert the USD to EUR in time. Lets hope not in our time. This will devastate a portion of the Forex Market and perhaps cause a loss of jobs and much more which no one wants to incur. Life will change forever as you and I know it.

Don't bite the hand that feeds you.

Leave the leverage factor alone for retailers. We finally got a piece of the pie. Don't spoil it for us working class survivors. George Soros will probably get his way in time. I hope I'm wrong. Give us a break.

If you feel I'm wrong, please tell me and please explain why. Otherwise, I will assume I am right and you agree.

Sincerely,
Richard Podpora
