Dear Sir,

Mr Secretary,

The forex market has been the greatest thing that I have done all my life. And the chances that it offers for the amount invested has been unmatched. For the whole world it has been forever 100:1 and to buy one Lot and invest about a \$1,000 has been what we grew up with, now to make one Lot for \$10,000 means you basically want to remove hundreds of thousands of people from the market and make the rich richer and deny the average person a chance towards success, because that will not be attainable... I hope you review this proposition as it will affect at least the pursuit of success of millions of young Americans ...
