Subject: Comment on changing leverage in retail Forex

Dear secretary David Stawick,

My name is Julio Gil and I want to express that I want that the leverage continue the same in retail Forex customer account. I think that the Forex trader need the freedom to trade using a high leverage if they want.

I think that if you change the leverage for retail Forex, So many Forex trader would take their money from USA to others countries that offer a higher leverage.

Thanks in advance:
Julio Gil
