Subject: Regulation of Retail Forex

To whom it may concern,
I am a retail trader and I am **strongly opposed** to the 10:1 leverage proposal by the CFTC.

This regulation/requirement will drive many of the smaller traders out of the markets entirely or to offshore (i.e. unregulated) brokers. The liquidity provided by retail traders increase the efficiency of the markets. Removing them, or unfairly pricing them out of the markets will result in increased price volatility overall and decrease the efficiency of the markets which is bad for everyone. Please reconsider this proposal.

Thank you
