Subject: RIN 3038- AC61 Leverage

Hello

wanted are mine estimation of decrease trading leverage,
why with trading leverage 1:10 in principle I beg to differ and I have to tell, that the this will result losses a lot of clients,
because constituency with low account, or and about 10.000 USD this will condemnation!!!It they will can allow
constituency with account 50.000 USD and more and as though these businessmen is less, how of those with little ones
account! I personally be concerned and certainly would think of change broker, should me it concerned and this way will
reason about a lot of clients!!!

Kind Regards
