**Subject:** Regulations Regarding Retail FOREX Transactions

---

Hello,

My name is Alsiran Jawdjee. I am against the new regulations that could be implemented in the forex market. I am perfectly familiar on margin and how to use it correctly, and 10:1 is just insane. This could put alot of retail clients out of the forex market and put alot of brokers out of business. I am tired of the constant NFA margin increases, you guys are just trying to keep the small investors out !!!

Thanks,

Alsiran Jawdjee
