Subject: Regulation of Retail Forex

To whom it may concern.
Regarding RIN 3038-AC61

I am absolutely opposed to the reduction of leverage under the proposed changes.

I am a very small trader and it is the 100:1 leverage I currently utilize in my trading.

By utilizing 100:1 I have a very small edge that helps me compete in this market.

Take this away and all you have done is provide preferential treatment for the large players while hurting the small trader like myself.

Thank you
Steven Wheeler
