Subject: Regulation of Retail Forex

Ref ID number : **RIN 3038-AC61**

Dear Sir/ma'am

The forex market has been a source of livelihood and income for me in these times of acute unemployment. I have been trading the forex markets for the last few years and the current margin requirement of 100:1 has helped me sustain and made my trading endeavor viable. Chances to the margin requirement to 10:1 for even one major or cross currency pair will end my trading career and I am sure to be on the road of unemployment. I implore you to **not** alter the current regulations.
