**Subject:** Regulation of Retail Forex

---

Dear Sir,

the proposed regulation of retail forex RIN 3038-AC61 will hurt a whole lot of people like myself who won't be able to make the new leverage requirement should the proposal go in effect. With proper equity management I am able to trade and support myself right now. I am ill and can't handle a regular nine to five and cannot see my self going on welfare. I am already looking into moving my account overseas. I am sure many traders are doing the same too. this move to change the leverage will only serve to hurt the us economy rather than helping it. Please reconsider this course kind sir as by doing so you will keep many families off the unemployment line.

Thank you,  
Glenville Gardner
