**Subject:** Regulation of Retail Forex

---

I am writing with regard to the proposed regulation RIN 3038-AC61, which would place a 10:1 limitation on forex trading. This would make it extremely difficult, if not totally impractical, for many small traders such as I to be able to continue trading the market. I hope you will not impose this requirement which would push many of us out of the market. Thank you for your consideration. Edwin Westover, Santaquin, Utah.
