**Subject:** 'Regulation of Retail Forex' in the subject line of your message and the identification number

---

RIN 3038-AC61

**As a U.S. currency trader for 5 years I completely disagree with 10 to 1 leverage, it would be impossible to make profitable trades. 10 to 1 leverage would cause myself and other clients to move their money to an offshore account. You're only hurting the U.S. market for retail forex and not solving anything. I hope you think long and hard about the consequences of such action.**
