Dear US Government. I've recently heard that you intend to decrease leverage of Forex trading for retail traders. Your proposal 10:1 leverage is extremely uncomfortable for the decent US trader. It will minimize the potential profit more than too much. Traders will be forced to transfer their funds in Europe, where this "Ridiculous Nonsense 10:1" is fortunately still unheard.

P.S. I'm Bulgarian citizen but please allow the US Forex traders to trade for God's sake. This is the way for them to pass the recession.

Have a splendid day!!!!
