Subject: "Regulation of Retail Forex"

To David Stawick,
Secretary, Commodity Futures Trading Commission:

I do not understand the extraregulation at leverage to 10:1 you proposed. that kind of situation may affect the forex trader only for a global elite, only affect the traders that can not have counts of hundred thousands dollars, this regulation is retrograde and is not a good solution for this economic situation. The past year you change de limit at leverage for a good reason, but the leverage limit to 10:1 is excessive and affect no only the mini traders affect brockers and the possibility of future expansion of this market.

Sincerely
