Subject: Regulation of Retail Forex

I personally think that changing the ratio from 100 to 1,,down to 10 to 1,,will completely collapse the trading market in the retail sector and find that most investors will transfer their funds from U.S. to Europe or Asia markets,,,causing billions of funds lost in the U.S. . This is a major mistake, with the value of the Dollar has already been cripple,by the economy, the unemployment,the housing market still in trouble,,not to mention the Commercial Real Estate being the next bubble to burst,,,Bottom line is,,most if not all traders will go to Europe and Asia,,and U.S. will lose billions upon billions that could of been traded here in revenue alone in daily trades x 356 days a year,,,,,, YOUR CHOICE !!!!!!!
