CFTC Comments

Dear CFTC Comments:

Wall Street's speculative trading in oil not only hurts the economy, but hurts every American who pays excessive prices at the pump, for groceries, home heating oil and everything related to transportation. Just when we are getting back on our feet, we see a runup in oil prices which are not due to demand and inventories. It's time these loopholes were closed so that middle America can begin to recover from the theivery by these hoodlums!

Sincerely,

sherry andresen
