CFTC Comments

Dear CFTC Comments:

I am writing in support of the CFTC's Proposed Federal Speculative Position Limits that will reestablish speculative position limits on major energy commodities. This rule will provide stability to the marketplace and help prevent future price bubbles.

The CFTC must quickly approve a strong rule to protect America's struggling economy.

Send consumers dividend checks since it is TARP money they are spending and/or OUR INTEREST money paid on our loans.

Our tax dollars were used to bail out large Wall Street firms when they were on the brink of bankruptcy. It is these same institutions who gamble on oil and who continue to profit at every American's expense.

I encourage the CFTC to adopt the Proposed Federal Speculative Position Limits before volatile fuel prices further harm the country's already weakened economy.

The BIG RICH guys have had THEIR turn long enough.

Have them SPECULATE by putting money back onto bank accounts of Families who are SENIORS, WAR-TIME VETERANS, who EARNED this right served their country---and BANK ROBBERY right here at RETIREMENT time, Give Seniors-who are also War-Time Veterans esp funds back first--we do not have as long to recover as younger folks do.

After all WE did not get \$8K tax break for buy NEW houses--as few Seniors will be First Time home-buyers so we need special help just like young

folks got in this example, and through help on college loans.

Nothing yet special for Seniors who are 20-30 years home/auto TAXPAYORS,
War-time Veterans

LOOK OUT for US vs Wall-Street Mafia

Sincerely,

Ron L and Sherry L Meeks
