CFTC Comments

Dear CFTC Comments:

I am writing in support of the CFTC's Proposed Federal Speculative Position Limits that will reestablish speculative position limits on major energy commodities. This rule will provide stability to the marketplace and help prevent future price bubbles. The CFTC must quickly approve a strong rule to protect America's struggling economy. It is unclear whether this move will transform a culture where value is so poorly attached to worth....but it is worth a try before the whole scam collapses!

Sincerely,

Rebecca Tippens
