CFTC Comments

Dear CFTC Comments:

I believe this to be a very important issue. I am extremely concerned about financial reform.

Even though this message got to me over the internet (from an organization that I respect and support) please trust that I have read the letter and agree strongly with everything it says. In fact I couldn't say it better.

I am writing in support of the CFTC's Proposed Federal Speculative Position Limits that will reestablish speculative position limits on major energy commodities. This rule will provide stability to the marketplace and help prevent future price bubbles. The CFTC must quickly approve a strong rule to protect America's struggling economy.

Sincerely,

Paul Meyers 2016594621
