**Subject:** Regulation of Retail Forex

---

Sir or Madam

RIN 3038-AC61

Over-regulation stifles business and the rules you brought in last year drove thousands of American investors to use offshore companies at the expense of American Forex Dealers. Your new regulation of 10:1 leverage will exacerbate this. The consequences will be a loss of jobs to Americans and a deterioration of the American way of life.

America is already suffering from a massive increase in Government, Government spending and Government regulation and is now well on it's way to becoming a communist state. Your new regulations will only speed this process up.

The voting public of Masseurhusetts yesterday clearly indicate that "We the People" have lost confidence in the present Government and your new regulations will only add to this by further eroding their "Freedom of choice".

One can only conclude that you are sociopaths, pathological narcissists, control freaks or complete idiots and the consequence of your present Government's actions and over-regulation will eventually drive states leaving the union or another American revolution. Ultimately, you are cutting your own throats at the expense of the public and driving money out of the USA.

I have been advising my American Forex trader friends to leave the country and settle elsewhere since 20 January 2009. Those with the funds to do so are already leaving because the future for America is becoming bleaker by the moment.

God help America

Barbara Day
