CFTC Comments

Dear CFTC Comments:

Our tax dollars were used to bail out large Wall Street firms when they were on the brink of bankruptcy. Yet it is these same institutions who gamble on oil and who continue to profit at every American's expense.

Our economy is beginning to recover. Jobs are starting to uptick. I support the CFTC's Proposed Federal Speculative Position Limits that will reestablish speculative position limits on major energy commodities. This rule will provide stability to the marketplace and help prevent future price bubbles. The CFTC must quickly approve a strong rule to protect America's struggling economy.

Sincerely,

Marsha McCroden
