CFTC Comments

Dear CFTC Comments:

I am writing in support of the CFTC's Proposed Federal Speculative Position Limits that will reestablish speculative position limits on major energy commodities. I would like it to take the additional step to closely regulate anything associated with derivatives including Credit Default Swaps and Collateral Debt Obligations or any new ways they come up with for gambling with the public's money. If they want to play casino with THEIR money that is fine but keep the rest of the world's money out of their shananigans.

Sincerely,

Douglas MacDonald
