Dear CFTC Comments:

I sold my home of 26 years when I was 60. I owed nothing. I bought another one which was easier to maintain and assumed that I was safe in putting money in real estate. The value of the home has decreased 125 K in 4 years. I had hoped to retire. I cannot. I am lucky to be able to work, I guess. The cost of gas and groceries impacts me negatively and I buy less that I used to.

Sincerely,
